The Killing Machine

This last weekend everything came down to the wire. However, a compromise was reached between the Democrats and Republicans which allowed the government to continue to operate. Sites like the Lincoln Memorial in Washington, D.C. could now stay open.

In an obvious publicity stunt, President Barack Obama used this to give us the impression that he spearheaded a deal, and that after all, he is someone who can work with the opposition party. He was videoed running up the steps of the Lincoln Memorial which honors a man who never would have tried to fool the people into believing what had to be a defeat for Obama and a victory for House Speaker John Boehner [OH-R], was his own success. Obama may have been sworn in on the Lincoln Bible, but he is no Lincoln.

After the deal was struck U.S. Representative Michele Bachmann [MN-R] expressed her dismay. She was not alone! Not one to mince words, she stated that the agreement reflected a \$62 billion error of sorts. Had we cut 100 billion and not the much touted 38 billion from the Federal Budget we could have defunded Planned Parenthood (PP) nationally and not just in the DC area, which is what happened. You can still get an abortion in DC but the taxpayer no longer has to pay for it.

What is now true for the DC area is certainly not true for the nation. Feminists and deal makers at PP have found a way around the Hyde Amendment which stipulates that no federal tax dollars can be used to pay for abortions.

Of course and as you might suspect PP says that it is in compliance with Hyde. Voters are asked to believe that no federal dollars are being used to pay for abortions, only for family planning services that they offer. Now that is cutting the baloney mighty thin.

Planned Parenthood operates what I call a killing machine. It is to children what Buchenwald, Dachau, and Auschwitz are to Jews. One congressperson said if you want your car fixed you go to a mechanic; if you want an abortion you go to Planned Parenthood. PP's blood-stained conveyor puts children on and at the end off falls their mangled bodies which are then scooped up and carted off to a rat-infested waste dumps. Feminists are determined to protect the Supreme Court's decision on Roe v. Wade [1973].

Milton Friedman is always worth quoting, "Liberals," he said, "demand freedom for themselves but not for others." Liberals can choose to abort a young child, but that same child has no right to life, liberty, and the pursuit of happiness.

At this very moment the well-oiled killing machine grinds away with the full support of lawmakers. If you kill your child the law is on your side. Professor Peter Singer [1946-] of

Princeton University says you should be able to do away with your child even if s/he has reached their second year.

What to do? The killing machine if we are to save civilization must be dismantled. Every bolt, nut, and wire used in its operation should be carried off beyond the walls of civilization where it can then be ground to powder.

Questions and Answers

What is Planned Parenthood?

Originally Planned Parenthood was called the American Birth Control League. It changed its name in 1942 because it wanted to distance itself from the eugenicists that had carried out experiments on people in Nazi Germany.

PP is by far and away the largest provider of surgical abortions in America.

PP is a for profit organization.

“The abortion giant took home \$85 million in ‘excess of revenue over expenses’ (a nifty way of saying profits) and had an operating budget of over \$1 billion for the 2007-08 fiscal year, according to its latest annual report. Included in that budget was \$350 million in ‘government grants and contracts’ (an equally nifty way of saying your tax dollars). An increase in the number of abortions performed helped fuel the profits.” [WinteryKnight.com]

PP promotes *values, free education*, etc. You can do what you please, just don’t get pregnant. If you do, we can arrange an abortion.

Who started Planned Parenthood?

The founder of Planned Parenthood was an avowed Marxist by the name of Margaret Sanger. Space does not permit me to go into her sex life. Only to say that her biographers are at a loss to identify all the men she bedded. You did not even need to be a leftist like historian H. G. Wells to be lured into her den.

Leaders in PP are at pains to distance themselves from Sanger, but not just because she was a Marxist and a nymphomaniac. PP has tried to distance itself from Sanger chiefly because she was a eugenicist. No Spartan was ever more dedicated to purifying the race.

We can see what Planned Parenthood has to hide by placing two quotes side by side, one from Adolph Hitler, a confirmed eugenicist, and the other from Sanger.

“The demand that defective people be prevented from propagating equally defective offspring . . . represents the most humane act of mankind.” [Hitler *Mein Kampf*]

“. . . we prefer the policy of immediate sterilization, of making sure that parenthood is absolutely prohibited to the feeble minded.” [Sanger *The Pivot of Civilization*]

Verdict

Is PP a eugenic organization? I am inclined to believe that most people connected to PP are not eugenicists, and that they have set up their clinics near poor neighborhoods because that's where many adolescents get pregnant. After all PP has to watch the bottom line.

I am also inclined to believe that some people connected with PP are Marxists in the tradition of feminists like Simone de Beauvoir who turned her house into an abortion mill and seemingly like some feminists never came to terms with being a woman.

Michele Bachmann in her drive to de-fund Planned Parenthood should have the full support of all conservatives, but not just because we want to reduce the deficit, but rather because the ghouls at Planned Parenthood refuse to turn off the killing machine.

Ever yours,

Yankee Steve Cakouros
